Subsidiaries are all entities (including structured entities) over which the group controls. The group controls a commodity when it is exposed to, or has rights to, variable returns from its involvement with the entity, and can affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date they are transferred to the group and deconsolidated from the date that control ceases.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. They should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2024, which were prepared in accordance with IFRS as issued by the IASB.

The board of directors approved the issue of these condensed consolidated interim financial statements on November 13, 2025.

Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2025 and 2024

(Unaudited, expressed in Canadian dollars, unless otherwise stated)

2. Basis of preparation (continued)

In preparing these condensed consolidated interim financial statements, management has made judgments and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual charges incurred by the Company may differ from these values.

The Company's accounting policies and significant judgments and estimates applied in these condensed consolidated interim financial statements are consistent with those of the annual consolidated financial statements for the year ended December 31, 2024.

3. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and term deposits with initial maturities of less than three months.

4. Short-term investments (continued)

- (i) The Company invested in a bond issued by China Energy Reserve & Chemicals Group Co. with a principal of USD 800,000 and a maturity date of January 15, 2019. This bond has been in default since September 30, 2018. As of September 30, 2025, and December 31, 2024, the Company still held the corporate bond but has entirely written it off to \$Nil, given the uncertainty of disposing of it in the open market.
- (ii) Remittance of short-term investments kept in RMB from China to Canada requires approvals by the relevant government authorities or designated banks in China or both.

5. Financial assets at fair value through profit or loss

(i) Common shares and warrants

The Company utilized its surplus cash to make targeted equity investments in the public market. These investments are classified as fair value through profit or loss (FVTPL) financial assets and are valued at fair value at inception and in each subsequent reporting period. The investment strategy does not deviate from the Company's core business focus, which remains centred on exploring and developing mineral properties.

Below is a table summarizing the investment activities related to common shares and warrants in Canada for the three and nine months ended September 30, 2025 and 2024:

(ii) Investment in common shares through a partnership

In October 2022, the Company, through Minco China, acquired a 9.54% interest in Tianjin Saikehuan Enterprise Management Center Limited ("Saikehuan LP") from Tianjin Huaxin Anneng Management Consulting Partnership LP ("Huaxin") for \$23,509,619 (RMB 119.8 million). This investment gives the Company an indirect interest in approximately 7,480,937 shares of Sichuan Hexie Shuangma Co. Ltd. ("Hexie"), one of China's largest cement manufacturers. Alongside the acquisition, Minco China entered into a restructuring and distribution agreement with Saikehuan LP and its general partner. Under this agreement, the Saikehuan LP will be restructured to allow Minco China to become a direct holder of the Hexie shares, with the ability to trade them on behalf of the Saikehuan LP. The terms of the restructuring agreement state that Minco China is entitled to recover its entire purchase price from the proceeds of any sale of Hexie shares. Once the purchase price is recovered, the remaining proceeds will be distributed: 20% to the general partner and 80% to Minco China.

As of September 30, 2025, the fair value of the investment was \$28,668,043 (RMB 146,639,907), compared to \$21,305,514 (RMB 108,323,968) as of December 31, 2024. The Company recognized an unrealized gain of \$7,419,387 (RMB 38,315,939) for the period, net of the 20% share payable to the general partner, compared to an unrealized loss of \$4,670,285 (RMB 24,717,016) in the prior year. Additionally, the Company recorded a foreign exchange loss of \$101,858, compared to a gain of \$725,777 in 2024.

6. Note receivable

From inception to final settlement, the Company recovered a total of \$26,364,767 (RMB 136,447,833) in principal, interest, and related payments from the Longxin Mining loan.

In 2018, the Company advanced a loan of \$14,043,925 (RMB 73.8 million) to the shareholders of Changning Longxin Mining Co., Ltd. ("Longxin Mining") in connection with a proposed acquisition. The loan, secured by 100% of Longxin's equity and other collateral, originally bore interest at 10% and was later extended with rates up to 24% in accordance with supplemental agreements.

Before enforcement actions commenced, and before 2021, the Company had received repayments totaling \$7,843,490 (RMB 40,917,638). Following the default in 2020, the Company initiated legal proceedings in China and obtained court judgments in its favour in 2021 and 2022. From 2022 to 2024, partial repayments totaling \$6,936,530 (RMB 35,893,074) were received through enforcement actions.

At December 31, 2024, the balance owing totaled \$9,701,287, comprising note principal of \$7,500,286 and accrued interest of \$2,201,001.

6. Note receivable (continued)

During the nine months ended September 30, 2025, the Company recovered \$12,377,336 (RMB 59,637,121), fully settling the outstanding principal of \$7,368,559 (RMB 38,053,450), accrued and late-payment interest of \$3,853,981 (RMB 19,903,116), and related expenses of \$325,418 (RMB 1,680,554). After paying a 10% success fee of \$1,154,796 (RMB 5,963,712) to legal counsel under the Anheli Service Agreement, the case was closed.

As of September 30, 2025, the note receivable and related accrued interest were fully settled, and the matter is considered closed.

8. Mineral interests

In the past, the Company encountered delays in renewing exploration permits for the Fuwan Silver Project and the Changkeng Gold Project. Consequently, in 2019, the Company recorded an impairment of \$60,246,258 related to exploration and evaluation costs incurred for the Fuwan Silver Project and Changkeng Gold Project.

A value-in-use calculation was not applicable as the Company had no expected cash flows from the mineral properties. In estimating the fair value less cost of disposal, management did not have any observable or unobservable inputs to estimate the recoverable amount above \$Nil. This valuation technique requires management's judgment and estimates of the recoverable amount, and is therefore classified within Level 3 of the fair value hierarchy.

The Changkeng Gold Project exploration permit was renewed in 2022 and expires on November 21, 2027. In addition, the exploration permit for the Fuwan Silver Project was renewed in March 2021 and expires on March 8, 2026. However, as substantive expenditures on further exploration and evaluation of mineral resources have not yet been planned or budgeted, management determined that this was not an indicator of an impairment reversal for the three months ended September 30, 2024.

As of the date of this report, the Company has begun the process of divesting its interests in the Fuwan Silver Project and Changkeng Gold Project. Negotiations are ongoing with multiple interested parties, and the Company may also explore operating the projects jointly with a state-owned enterprise. Management will continue to evaluate these developments and their implications for the valuation and classification of the related mineral interests.

8. Mineral interests (continued)

Fuwan Silver Project

Minco Silver has a 90% interest in Changfu Minco, the Company's operating subsidiary in China, and Fuwan Silver Project, subject to a 10% net profit interest held by GGB. There will be no distributions to or participation by GGB until Minco Silver's investment in the project is recovered. GGB is not required to fund any expenditures related to the Fuwan Silver Project. The Exploration Permit for the Fuwan Silver Project is the Luoke-Jilinggang exploration permit, which was renewed in March 2021 for five years with an expiry date of March 8, 2026.

Changkeng Gold Project

The Company holds a 51% interest in Mingzhong, which owns the Changkeng Gold Project. The Changkeng Gold Project immediately adjoins the Fuwan Silver Project. The Changkeng permit was renewed in November 2022 for five years with an expiry date of November 21, 2027.

Field expenses and property investigation

During the nine months ended September 30, 2025, the Company incurred expenditures to maintain its exploration permits. The Company remains focused on identifying and acquiring advanced, high-quality mineral projects globally. To support this objective, the exploration team reviewed and evaluated various prospective properties throughout the period. In addition, as part of the Company's ongoing efforts to divest the Fuwan Silver Project and Changkeng Gold Project, field expenses during the period also included transaction-related costs such as travel, meals, valuation services, legal consulting, and other selling-related expenditures.

During the three and nine months ended September 30, 2025, the Company incurred property investigation and permitting expenses of \$417,437 (2024 – \$181,591) and \$870,916 (2024 – \$584,089), respectively. These expenses comprised salaries, consulting and legal fees, travel, licensing costs, and other related expenditures. The increase in property investigation and permitting expenses for the three and nine months ended September 30, 2025, compared to the same periods in 2024, was primarily due to a one-time bonus paid to personnel involved in the successful recovery of the Longxin loan, which was recorded under property investigation and permitting expenses. Excluding this non-recurring bonus, the underlying expenditures were consistent with the prior year.

9. Investment accounted for using the equity method

In May 2020, the Company made a private placement investment in Hempnova Lifetech Corporation ("Hempnova") by purchasing 7,950,000 common shares for \$0.40 per share for a total investment of \$3,180,000. Hempnova is not traded on any exchange. The Company's investment represented approximately 12.7% of the issued and outstanding common shares of Hempnova following the private placement.

Hempnova is actively involved in providing industrial hemp-related services and products. It was incorporated in British Columbia, with its primary business conducted through its wholly owned subsidiary, Hempnova Lifetech (USA) Corp., which operates in the USA.

Although the Company's shareholding in Hempnova is below the 20% threshold, management has determined that the Company possesses material influence over Hempnova. This influence stems from the Company's ability to influence decision-making, as both companies share certain directors and management, with some of them also owning Hempnova common shares. Due to this material influence, the Company accounts for its investment in Hempnova using the equity method.

9. Investment accounted for using the equity method (continued)

Management assesses whether there is objective evidence that its investment in Hempnova is impaired at the end of each reporting period. Management applies material judgment in evaluating and determining whether impairment exists that would necessitate impairment testing. Impairment indicators may include loss events such as (i) material financial difficulty of Hempnova, (ii) material changes with an adverse effect that have taken place in the market, economic or legal environment in which Hempnova operates and (iii) evidence of a material or prolonged decline in fair value of Hempnova below its carrying value. In 2021, the Company identified impairment indicators and recorded an impairment of \$1,436,514 on the equity investment in Hempnova.

As of September 30, 2025, and December 31, 2024, the Company owned 12.7% of Hempnova. The continuity of this investment is as follows:

	Total
	\$
Carrying value, at January 1, 2024	660,591

9. Investment accounted for using the equity method (continued)

A summary of Hempnova's income statement for the nine months ended September 30, 2025, and 2024 is as follows:

	September 30, 2025,			September 30, 2024,
	Hempnova	Minco Silver share	Minco Silver share

Comprehensive income				
(loss)	(4,365,890)	(554,468)	279,921	35,550

During the nine months ended September 30, 2025, the Company recognized a share of loss from Hempnova totaling \$530,163. The loss primarily reflects Hempnova's decision to temporarily suspend its operations following a potential legal matter involving one of its major customers. In this quarter, Hempnova recorded impairment on its accounts receivable and accrued legal-related expenses associated with the matter. As the legal process is still ongoing and the outcome remains uncertain, management considers the situation to be temporary. It will continue to closely monitor Hempnova's financial position and business development.

11. Leases

The Company's recognized right-of-use assets and liabilities primarily comprise the present values of all future lease payments under two leases for offices in Vancouver, Canada, and Beijing, China.

The Vancouver lease is for a shared office with other related companies, with certain directors and management in common. The original lease started in 2018 and will end on April 30, 2023. In November 2022, the Company renewed the lease agreement for another five years, ending on April 30, 2028. The cost-sharing agreement was reviewed at the beginning of the year, and the sharing percentage was changed.

The Company also entered into a lease agreement with its CEO for a shared office in Beijing, China (note 15(b)). The lease started on April 1, 2019, and will end on August 31, 2026. Such leases were classified as operating leases under IAS 17. The right-of-use assets and lease obligations were measured at the present value of the lease payments, discounted at an incremental borrowing rate of 8%.

One of Mingzhong's minority shareholders has a related party relationship with Minco Silver.

In 2017, Mingzhong embarked on an equity financing initiative to raise capital from its minority shareholders to finance its operations. As a result, in 2018, minority shareholders made contributions totaling \$351,968 through their subscriptions. However, the completion of the equity financing is subject to receiving remittance from the remaining minority shareholders. Unfortunately, as of September 30, 2025, the equity financing has not been fully completed due to one of the minority shareholders failing to fulfill its subscription obligation.

During the nine months ended September 30, 2025, the Company did not receive any funds from the minority shareholder. As of September 30, 2025, the \$347,090 (December 31, 2024 - \$349,929) remained in Mingzhong's payable account to minority shareholders.

13. Share capital

(a) Common Shares

Authorized: Unlimited number of common shares without par value.

(b) Long-term Incentive Plan

The Company may grant up to 15% of its issued and outstanding shares as options, restricted share units, performance share units and deferred share units to its directors, officers, employees and consultants under its long-term incentive plan.

Stock Options

The Company's long-term incentive plan allows the board of directors to grant options for up to 10 years, with vesting periods determined at its sole discretion and prices equal to or greater than the closing market price on a date preceding the grant date. These options are equity-settled.

No stock options were granted in 2024.

During the nine months ended September 30, 2025, the Company granted 2,900,000 stock options to employees, consultants, and directors, exercisable at \$0.21 per common share. These options vest over 18 months from the grant date and will expire on June 3, 2030.

13. Share capital (continued)

For the three and nine months ended September 30, 2025, the Company recognized \$109,494 (2024 – \$25,731) and \$140,613 (2024 – \$129,952), respectively, in share-based compensation related to stock options.

The continuity of the outstanding options is as follows:

		Weighted
	Number	average exercise
	outstanding	price
	#	\$
Balance, January 1, 2024	8,071,000	0.30
Expired	(30,000)	0.20

	8,060,000	3.07	0.21	5,160,000	0.21

The Company used the Black-Scholes option pricing model to determine the fair value of the options with the following assumptions:

Option pricing models require subjective estimates and assumptions, including the expected stock price volatility, calculated based on the Company's historical volatility. Changes in the underlying assumptions can materially affect the fair value estimates.

14. Related party transactions

(a) Key management compensation

Key management includes the Company's directors and senior management.

During the three and nine months ended September 30, 2025, and 2024, the following compensation and benefits were paid to or accrued for the key management.

	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
	\$	\$	\$	\$
Senior management remuneration and benefit (i)	231,476	140,952	550,370	420,572
Directors' fees ⁽ⁱ⁾	51,500	17,250	90,500	53,250
Share-based compensation	47,161	21,736	60,565	110,759
	330,137	179,938	701,435	584,581

⁽i) including living allowance and medical insurance for the CEO in China. The increase in management remuneration and directors' fees for the three and nine months ended September 30, 2025, compared to the same periods in 2024, was mainly due to a one-time bonus paid to management and personnel involved in the successful recovery of the Longxin loan.

(b) Rental agreement with the CEO

On April 1, 2019, Minco China, a wholly owned subsidiary of the Company, entered into a lease agreement for an office in Beijing, China. The property's lessor is the Company's CEO. The lease, effective from April 1, 2019, is set to expire on August 31, 2026. The monthly rent for the office space is \$17,427 (RMB 90,000). Additionally, the Company incurred lease-improvement expenses under the agreement. During the nine months ended September 30, 2025, the Company incurred \$17,950 in lease improvement expenses, compared to \$6,615 in 2024.

(c) Shared office expenses

The Company, Minco Capital Corp. ("Minco Capital"), Hempnova, and Minco Base Metals Corporation ("MBM") share certain directors and management. These four companies share certain offices and administrative expenses.

During the three months ended September 30, 2025, the Company paid or accrued \$15,368 (2024 - \$17,398) in respect of rent and \$34,554 (2024 - \$35,307) in shared head office expenses and administration costs to Minco Capital.

During the nine months ended September 30, 2025, the Company paid or accrued \$42,649 (2024 – \$50,179) in respect of rent and \$113,080 (2024 – \$120,742) in shared head office expenses and administration costs to Minco Capital.

The amounts due from (to) are unsecured, non-interest-bearing, and payable on demand.

(e) Trust arrangement with MBM

In 2018, the Company disposed of two former subsidiaries (Minco Yinyuan Co. and Minco International Resources Limited) to MBM. Upon disposition, Minco Yinyuan has a trust arrangement with Minco China, a wholly owned subsidiary of the Company, to continue holding certain cash and short-term investments for Minco China. As of September 30, 2025, the amount held by Minco Yinyuan in trust for Minco China was \$155,307 (December 31, 2024 - \$157,682).

(f) Investment in Hempnova

Refer to Note 9 above for investment accounted for using the equity method.

15. Geographical information

The Company is considered to operate in a single segment: the exploration and development of resource properties. The geographical division of the Company's assets is as follows:

As of September 30, 2025	Canada	China	Total
	\$	\$	\$
Current assets	6,769,002	42,999,749	49,768,751

16. Financial instruments and fair value measurements

Lease obligations, non-current

The Company measured its investments in common shares at fair value in the open market at inception and in each subsequent reporting period. Fair values of financial instruments not measured at fair value approximate their carrying value due to their short-term nature. The Company's financial instruments are as follows:

September 30, 2025

87,495

December 31, 2024

	50ptc111001 50, 2025	December 51, 2021
	\$	\$
Financial assets at fair value through profit or		
loss		
Marketable securities (level 1)	33,935,512	23,497,437
Amortized cost of financial assets		
Cash and cash equivalents	6,031,511	5,455,218
Short-term investments	9,383,981	2,846,130
Note receivable	-	7,500,286
Deposit	68,278	68,729
Receivables	130,836	2,341,180
Due from related parties	32,335	29,159
Amortized cost financial liabilities	September 30, 2025	December 31, 2024
	\$	\$
Due to related parties	705,947	210,008
Accounts payable and accrued liabilities	376,178	227,786
Credit losses payable	-	970,129
Due to minority shareholders of a subsidiary	347,090	349,929
Lease obligations, current	237,007	247,583

Financial assets and liabilities recognized on the balance sheet at fair value can be classified in a hierarchy based on the significance of the inputs used in the measurements. The levels in the hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Financial instruments that are not measured at fair value on the balance sheet are represented by cash and cash equivalents, short-term investments, receivables, note receivable, due to and from related parties, accounts payable and accrued liabilities. The fair values of these financial instruments approximate their carrying value due to their short-term nature.

Financial risk factors

The company's activities expose it to financial risks, including market risk (including currency and interest rate risk), credit risk, and liquidity risk. Risk management activities are carried out by management, which identifies and evaluates the financial risks.

Credit risk

Counterparty credit risk is the financial exposure arising from contracts with a specific counterparty that would be lost if the counterparty defaults on its obligations under those contracts. This includes any cash amounts owed to the Company by these counterparties, less any amounts owed to the counterparty by the Company where a legal right of set-off exists, as well as fair value contracts with individual counterparties, which are recorded in the consolidated financial statements. The Company considers its Cash and cash equivalents, short-term investments, and note receivable to be exposed to credit risk.

To manage credit risk, the Company:

- limits its credit exposure on cash and cash equivalents by holding its deposits mainly with high-credit quality financial institutions in Canada, Hong Kong and China,
- Obtain adequate collateral to secure the recoverability of the note receivable (also refer to note 6).

Foreign exchange risk

Minco Silver's functional currency is the Canadian dollar, and its Chinese subsidiaries' functional currency is the RMB. Most foreign currency risk relates to US dollar funds held by Minco Silver and its Chinese subsidiaries. Therefore, the Company's net loss is impacted by fluctuations in the valuation of the US dollar relative to the Canadian dollar and RMB.

The Company does not hedge its exposure to currency fluctuations. It has completed a sensitivity analysis to estimate the impact of a change in foreign exchange rates on its net loss, based on its net US\$1.62 million in monetary assets as of September 30, 2025. This sensitivity analysis shows that a $\pm 10\%$ change in the US\$ foreign exchange rate would have a $\pm \text{US}\$0.16$ million impact on net loss.

Interest rate risk

Financial instruments that expose the Company to interest rate risk are cash and cash equivalents and short-term investments. The Company does not hold cash and cash equivalents, short-term investments and notes receivable at variable rates. As a result, the Company is not exposed to significant interest rate risk.

Liquidity risk

Liquidity risk includes the risk that the Company cannot meet its financial obligations as they fall due. The Company has a planning and budgeting process to determine the funds required to support its standard operating requirements and exploration and development plans. The annual budget is approved by the Company's board of directors. As of September 30, 2025, the Company has positive working capital of approximately \$48.1 million. Management concludes that the Company has sufficient funds to meet its current operating and exploration expenditures.
